HACKING

- Ethical Hacking Bundle!! 100+ hours content. Just have a look :)
submitted by /u/patidarayush11 [link] [comments]
- IMPORTANT ANNOUNCEMENT and Call for moderators!! (5th time or may be 6....I lost the count)
Well, I started this sub while keeping the moto is to discuss and learn the art of hacking and pentesting. NOT to promote the hacking which can invade someone's privacy or used for any illegal activities. Daily I remove around 10-15 posts regarding hacking services, how to hack my GF's iPhone, how to hack games etc. Automod is enabled but sometimes [...]
- Buffer Overflow Vulnerability Exploit - simple example
I've been working on this for hours, and I've hit a wall where I'm making no more progress. I get the impression that someone who is familiar with this would be able to point me in the right direction pretty quickly. Any advice would be greatly appreciated. I am trying to create a shell to exploit a

- Help with a dictionary program for WiFi?
Ok, just off the bat, I'm a complete newbie. The most hacking I've done is spoofing my MAC address. I put linux on an old laptop of mine and I'm learning how to use nmap, but that's about it. I'm very willing to learn though, that's why I'm on this sub. I need some help with getting a wifi password. My school announced that it would no longer be giving out t [...]
- I need some help
I have kali linux installed in my USB, i've downloaded alot of stuffs so i can use them in my pc but when i restart it i didn't find the things that were already installed. I need your help to solve this probleme submitted by /u/yaswalker22 [link] [comments]
- Web app pentest
Was wondering if there is any web app pentesting site for free that help you understand how to perform attacks. Dvwa is good but was wondering if there is something that helps teach while you perform attacks to learn xxs, rce ,etc. submitted by /u/dereck56 [link] [comments]

submitted by /u/EcpLisE [link] [comments]

- What are some relevant guides on cryptography and how I can apply it to cracking?

I've been following along with serious cryptography: a practical introduction to modern cryptography but it's getting a little deep for my interest. Sure I'm learning some interesting concepts, but I wanna bring it back in towards the general concepts and learn purely how to crack. The books on cryptography go way too deep and otherwise, I jus [...]

A thread on John Bolton. This was inevitable. For many months Trump wanted to pivot to striking deals w/ America's enemies-- Taliban, Iran, DPRK, even Russia-- in the run up to the election. Pompeo was willing to accept this to shape it. Bolton was not & sought to sabotage it 1/9
