What Is Google Dork ?

A Google dork is an employee who unknowingly exposes sensitive corporate information on the Internet. The word dork is slang for a slow-witted or in-ept person. Google hacking, also named Google dorking is a computer hacking technique that uses Google Search and other Google applications to find security holes in the configuration and computer code that websites use.

“

Also Read: How To Hack Anyone Personal Details And Documents Using Google

Google dorks put corporate information at risk because they unwittingly create back doors that allow an attacker to enter a network without permission and/or gain access to unauthorized information. To locate sensitive information, attackers use advanced search strings called Google dork queries.
